Yellowknife, NT, Canada (PRWeb)
November 22, 2006
-- SSI Micro has successfully completed Phase I of a project designed to bring affordable communications services to the 33-Island "Republic of Kiribati", located 3 hours North of Fiji in the South Pacific.

The solution deployed in Kiribati is built around SSI Micro's "ARIA" software which enables fully automated provisioning & billing of voice, video & data services. ARIA is one of the only turn key solutions available which seamlessly integrates with the Motorola NextNet Expedience® Non Line Of Sight (NLOS) wireless platform used as the last mile for this project.

"I had already promised our staff we would not take on any new projects this year when I was introduced to the delegation from TSKL who were also at the Pacific Telecommunications Conference in Hawaii." said Jeff Philipp, President/CEO of SSI Micro. "After flying out to Kiribati to meet with the board of directors and senior management team in April of this year I was convinced that we could really help the people of Kiribati, and my team agreed - so we accepted the project".

"We were very excited by what we saw at the awards ceremonies in Hawaii", said Baraniko T...
